

Key term 1: Socialisation

Socialisation

Socialisation is the process by which we learn norms and values- the correct way to behave in society. Norms are rules that everyone in society is expected to follow. Values are ideas and concepts that are important to people. Norms are based on values.

Sociologists believe that we learn our good and bad behavior from our social upbringing- this process is called socialization, which is carried out by specific social institutions. The main institutions that teach us norms and values are from:

- The Family, passes on **Primary Socialisation**- the first people we meet and learn basic right and wrong from.
- Education, The workplace, Religion, The mass media, and The peer group are all sources of **Secondary Socialisation**

Socialisation is the process by which we learn norms and values
